Limestone

La bellezza della pietra calcarea nata dai fondali marini e lavorata nel corso del tempo dall'acqua. Dalla colorazione profonda e dalle piccole imperfezioni che la rendono unica. Peculiarità di una pietra naturale che vengono magistralmente riprodotte in questa nuova proposta.

The beauty of limestone, sourced from the seabed where it has been shaped over time by water, with its rich coloring and small imperfections making it a unique and timeless material, has been masterfully recreated in this new collection.

Die Schönheit des Kalksteins, der sich im Meeresboden bildet und im Laufe der Zeit vom Wasser geformt wird, mit seinen tiefen Farben und den kleinen Unvollkommenheiten, die ihn einzigartig machen. Besonderheiten eines Natursteins, die in diesem neuen Vorschlag meisterhaft reproduziert werden.

La beauté de la pierre calcaire, née des fonds marins et travaillée au fil du temps par l'eau, la couleur profonde et les petites imperfections qui la rendent unique. Caractéristiques d'une pierre naturelle qui sont magistralement reproduites dans cette nouvelle proposition.

Evoluta

Nasce con Evoluta Synchro Digit Piemme™: la Superficie con Struttura Digitale Sincronizzata Piemme capace di esprimersi in varianti illimitate che innalzano lo standard qualitativo dell'intero settore ceramico. La superficie tridimensionale non è più formata per pressatura ed è quindi libera dai vincoli ripetitivi dei classici stampi per ceramica; inoltre è perfettamente sincronizzata con l'andamento della grafica di superficie.

Evoluta marks the launch of Synchro Digit Piemme™: the Piemme synchronized digital structure surface capable of expressing itself in unlimited variants that raise the quality standard of the entire ceramic industry. The three-dimensional surface is no longer formed by pressing and is therefore not limited by the repetitive constraints of classic ceramic moulds; it is also perfectly synchronized with the surface graphic pattern.

In Evoluta zeigt sich zum ersten Mal Synchro Digit Piemme™, die mit synchronisierter digitalen Struktur Oberfäiche Piemme, die durch die Eröffnung unbegrenzter Gestaltungsvarianten den Qualitätsstandard der gesamten Keramikbranche anhebt. Die reliefierte Oberfläche wird nicht mehr durch Pressung erzielt und ist deshalb auch nicht an die Wiederholungsmuster der klassischen Formpressen für Keramik gebunden. Sie ist auch mit den Oberflächengrafiken vollkommen synchronisiert.

Evoluta marque la naissance de Syncro Digit Piemme™, la surface avec structure synchronisée numérique Piemme, dont les variantes illimitées permettent une expression qui vient rehausser les normes de qualité de tout le secteur de la céramique. La surface tridimensionnelle n'étant plus formée par pressage, elle est désormais libérée des contraintes répétitives imposées par les moules pour céramique classiques. Par ailleurs, elle est parfaitement synchronisée avec l'évolution des éléments graphiques de la surface.

L'arte del decoro della Roma Antica, dell'"opus incertum e del lapis porphyrites", sono reinterpretati secondo le tecnologie contemporanee, mantenendo intatto il fascino del riuso esaltato nella serialità dell'industria.

Geostone

Da un'attenta ricerca di design nasce Geostone. Il fascino senza tempo delle rocce sedimentarie è riproposto in un blend armonizzato sulla superficie del grès porcellanato Piemme.

Geostone was created on the basis of careful research into design. The timeless appeal of sedimentary rocks is re-presented in a harmonized blend on the surfaces of Piemme porcelain stoneware.

Aus einer sorgfältigen Designstudie entsteht Geostone. Zeitlose Magie des Sedimentgesteins, an der Oberfläche des Feinsteinzeugs von Piemme mit harmonisch abgestimmtem Blend nachempfunden.

Geostone est issue d'une recherche de design attentive; la fascination intemporelle des roches sédimentaires a été revisitée en un mélange harmonieux sur la surface du grès cérame Piemme.

Purestone

Una vera e propria materia d'arredo, ricavata elaborando l'estetica di diverse pietre esistenti in natura. "Purestone" Piemme è un moderno grès porcellanato dai toni delicati e dalle venature discrete, mai eccessive.

A real furnishing material, obtained by processing the aesthetics of various kinds of natural stones, Piemme "Purestone" is a modern porcelain stoneware with delicate colour shades and discreet and never excessive veins.

Ein echtes Einrichtungsmaterial, gewonnen aus einem Mix der Optik verschiedener Natursteine. Piemme "Purestone" ist ein modernes Feinsteinzeug in zarten Tönen und mit dezenten, unaufdringlichen Aderungen.

Cette véritable révolution en matière d'architecture intérieure est le fruit d'une étude précise sur les différentes pierres existant dans la nature. "Purestone" by Piemme est un grès cérame moderne, aux teintes délicates, aux veines discrètes parfaitement dosées.
